

**Special issue of the
Journal of Atmospheric and Solar-Terrestrial Physics
as a culmination of the 2006 Yosemite Workshop**

Title of the special Issue: Global Aspects of Magnetosphere-Ionosphere Coupling

Guest editors: Jerry Goldstein, Southwest Research Institute (jgoldstein@swri.edu)

Maria Spasojevic, Stanford University (maria@nova.stanford.edu)

Robert Strangeway, UCLA (strange@igpp.ucla.edu)

Deadline for submission: 17 April 2006

Deadline for acceptance: 23 August 2006

Topics presented at the Yosemite 2006 workshop are highly timely and relevant to the larger space physics community. A special issue of JASTP would provide means of disseminating this work in a well-respected and widely circulated scientific journal.

Content of the special issue:

0. Author, Title	Page Allocation
1. Goldstein, J., Global aspects of magnetosphere-ionosphere coupling	8
2. Wolf, R. A., The inner magnetosphere: An evolving picture	16
3. Sazykin, S., Structure and strength of ionospheric electric fields of magnetospheric origin during large geomagnetic storms	8
4. Anderson, P. C., Subauroral electric fields: Their characteristics and relationship to Region 2 field-aligned currents	8
5. Anderson, B. J., Korth, H., Frey, H., Greenwald, R. A., Ruohoniemi, J. M., and Rich, F. J., Aspects of magnetosphere-ionosphere coupling derived from global determinations of Birkeland currents, convection and remote sensing	8
6. Brandt, P. C., Zheng, Y., Fok, M.-C., Mitchell, D. G., Ukhorskiy, A. Y., and Anderson, B. J., The role of the ring current and conductivity in the inner magnetosphere	10
7. Foster, J., Rideout, W., Sandel, B., Forrester, W. T., and Rich, F., On the relationship of SAPS to SED	8
8. Fuller-Rowell, T., Maruyama, N., and Codrescu, M., A review of thermosphere-ionosphere coupling processes	8
9. Heelis, R., and Coley, Variations in the low and middle latitude topside ionosphere observed by DMSP during superstorm events	8
10. England, S. L., Immell, T. J., Sagawa, E., Henderson, S. B., Hagan, M. E., Mende, S. B., Frey, H. U., Swenson, C. M., and Paxton, L. J., The effect of atmospheric tides on the morphology of the quiet-time, post-sunset equatorial ionospheric anomaly	8
11. Spasojevic, M., Goldstein, J., and Richmond, A., The effect of thermospheric winds on plasmaspheric drift patterns	12
12. Carpenter, D. L., Chung Park, pioneer of M-I coupling research	8
13. Larsen, B., Klumpar, D., and Gurgiolo, C., Model of plasmapause position and delay times from solar wind parameters	8
14. Gallagher, D., The analysis of plasmaspheric flow in IMAGE EUV observations	8
15. Yizengaw, E., Moldwin, M. B., and Dyson, P. L., The potential of ionospheric tomography to image structures in average electron density over a wide spatial region	8
16. Bortnik, J. and Thorne, R. M., The dual role of ELF/VLF chorus waves in the acceleration and precipitation of radiation belt electrons	8
17. Millan, R. and Thorne, R., Review of relativistic electron losses from the radiation belts	16

18. Lotko, W., A systems perspective on MI Coupling 16
19. Richmond, A. D., Maute, A., Lu, G., Joule heating effects on the upper atmosphere 10
20. Ostgaard, N., Mende, S. B., Frey, H. U., Sigwarth, J. B., Aasnes, A., and J. Weygand, Auroral conjugacy studies 8
